I am a third year student in Computer Science, passionate about informatics and I am eager to deepen my knowledge. As a hard-working and ambitious person, I am willing to improve, gather experience and apply my skills gained during my studies.

Education

Bachelor Degree in Computer Science / University of Bucharest, Faculty of Mathematics and Computer Science
Since October 2019

Mathematics and informatics / Zinca Golescu National College Piteşti, Romania
From November 2015 to June 2019

Internships

Mobile solutions specialist / certSIGN Bucharest
From July 2021 to October 2021

- Quality assurance for mobile applications
- Obtaining certificates for UEM solutions and apply gained knowledge

Programming languages

Good knowledge of: C/C++, C#, Python, Java, ASP .NET MVC5, HTML, CSS, PL/SQL,;
Basic knowledge of: JavaScript, Haskell, R, Git;

Projects

Sweets Shop
- Web application for online shopping using ASP.NET MVC5 with entity framework.

Salon management database
- Designed a database that contains information about employees, clients, fidelity cards, products, and appointments. I used PL/SQL procedures, functions and triggers for manipulation of data.

Warriors Gym
- A small website for a gym during Web Technologies course using HTML, CSS, JavaScript and Node.JS.

Medical Office
- Developed a backend application for medical office management using Java and MySQL

Login and register system
- Developed for phones using python with Kivy framework. Users can create accounts with email confirmation and request the change of password. The accounts are stored using SQLite.

Computer skills

Algorithms and Data Structures

Object Oriented Programming

Web Development

Database Management

Languages

Romanian

French A2

English B2

German A2

Soft Skills

Problem Solving

Teamwork

Critical thinking

Open-minded

Awards

Certificate of Course Completion Databases Foundation Oracle

Hobbies

Swimming

Reading

Music
